

TRY THIS: SWEET POTATO

Did you know: Sweet potatoes are a nutrition powerhouse, affordable to use, easy to find in the grocery store and even easier to use at home! Like most vegetables they are fat- and cholesterol- free, low in sodium and high in vitamin A and C and a great tasting way to add in fiber and potassium. Tastes great roasted, sautéed, or tossed into soups and stews.

HOW TO:

Pick it: Choose firm, small to medium sized potatoes with a smooth skin. Avoid cracks, soft spots and blemishes or remove those before preparing.

Store it: Store it outside the refrigerator in a cool, well-ventilated, dark place. It can keep for 3-5 weeks.

Use it: To peel or not to peel, that is up to you, just wash it first! Then slice, dice, or cut into chunks according to your recipe directions. Or stab it a few times with a fork and make a baked sweet potato in your microwave.

When it's in season: September to December is peak time for this spud but it's readily available much of the year in most grocery stores.
