

Interested in selling your garden produce **from your residence?**

The City of Wichita recognizes the importance of supporting the health of the community and residents' ability to grow, sell, and buy healthy food.

A few items from the Zoning Code to keep in mind:

- All the items being sold must have been grown onsite
- This business cannot change the character or appearance of the property
- In most cases no outside employees allowed
- No outdoor storage
- No noise, odor, etc. above the prevailing use
- In most cases no signs

Be considerate of your neighbors:

- Don't allow your customers to block driveways or walk through your neighbor's yards
- Conduct your business during hours that won't be disruptive to the neighborhood
- Check with your Homeowners Association to make sure this is an allowable activity in your neighborhood
